1. Executive Master Scoreboard

Intern Name	Assigned Squad	Key Module Deliverables	Completion	Score	Rating
Sayed Arooj sayedaarooj702@gmail.com	Squad PHP-FE-B Client Onboarding Portal	Client Timeline, Dynamic Invoices Table, Invoice Download Button	92.0%	9.2 / 10	A (TOP PERFORMER)
Akash Rana muskanarshad2580@gmail.com	Squad PHP-FE-A CRM Board & Quick Tools	HTML5 Drag & Drop Kanban, Real-time Debounced Search, Notes Panel	90.0%	8.8 / 10	A- (VERY STRONG)
Kaneez Fatima faziz9121@gmail.com	Squad PHP-FE-B Responsive QA & Auth	6-Device Viewport QA Audit, Mobile Breakpoint CSS, OTP Input Fixes	86.0%	8.7 / 10	A- (HIGH DILIGENCE)
Zainab Batool zainab.batool@devlogix.online	Squad PHP-BE (Lead) Unified Core Engine	Lead Stage API, Activity Logging, Magic Codes, Parameterized Search API	88.0%	8.5 / 10	A- (SOLID ARCHITECT)
Halima Sadia halima.sadia@devlogix.online	Squad PHP-FE-B Agreements & Signature	Master Agreement Layout Shell, Canvas Signature Pad (Touch/Mouse)	82.0%	8.0 / 10	B+ (GOOD TECHNICAL)

2. Squad Participation & Attendance Roster Audit

Roster Name (SRS List)	Squad	Git Activity	Audit Findings	Status
Zainab Batool	Squad PHP-BE (Lead)	12 Commits / 4 PRs	Primary contributor and author for backend APIs.	ACTIVE / EVALUATED
Akash Rana / Muskan Arshad	Squad PHP-FE-A	9 Commits / 3 PRs	Primary contributor for Kanban board and quick tools.	ACTIVE / EVALUATED
Sayed Arooj	Squad PHP-FE-B	8 Commits / 5 PRs	Primary contributor for Client Portal and Invoice table.	ACTIVE / EVALUATED
Kaneez Fatima	Squad PHP-FE-B	7 Commits / 4 PRs	Primary contributor for mobile testing and responsive polish.	ACTIVE / EVALUATED
Halima Sadia / Haleema Butt	Squad PHP-FE-B	5 Commits / 2 PRs	Primary contributor for Master Agreement canvas signature.	ACTIVE / EVALUATED
Atiq Maqbool, Areesha Sarwar	Squad PHP-BE	0 Commits	No individual git commits or PRs recorded under account.	UNRATED / INACTIVE
Fatima Nadeem, Minahil Imran, Momna Hafeez	Squad PHP-FE-A	0 Commits	Work submitted via Akash Rana or no individual contributions.	UNRATED / INACTIVE

ROSTER NAME (SRS LIST)	SQUAD	GIT ACTIVITY	AUDIT FINDINGS	STATUS
Momna Munir	Squad PHP-FE-B (Lead)	0 Commits	Work submitted via team members; no code commits recorded.	UNRATED / INACTIVE

3. Individual Intern Deep-Dive Scorecards

GRADE: A (TOP PERFORMER)

9.2 / 10

Completion: 92.0%

Sayed Arooj – Client Portal & Data Integration

Squad PHP-FE-B • Email: sayedaarooj702@gmail.com

ARCHITECTURE & UI

9.5 / 10

DOD COMPLIANCE

9.2 / 10

SECURITY & PRIVACY

9.0 / 10

GIT COLLABORATION

9.0 / 10

Deliverables: FEB-W7D2-2 (Timeline UI) FEB-W7D2-3 (Invoice UI) FEB-W7D3-1 (Timeline DB Sync)
FEB-W7D3-2 (Invoice DB Sync) FEB-W7D4-1 (Download Button)

✓ Code Strengths & Key Achievements

- Implemented beautiful, brand-accurate Client Portal dashboard matching Figma tokens.
- Architected graceful degradation: if database is offline, UI seamlessly serves mock datasets without crashing.
- Clean client isolation query (`WHERE client\_id = :client\_id`) preventing IDOR leaks.
- Fastest turnaround on sprint review adjustments with zero merge collisions.

! Deficiencies & Areas for Growth

- Initial timeline calculation inverted progress (`\$progress = 100 - ...`).
- Created redundant database config in `client-portal-dashboard/config/` instead of root singleton.
- Initially wired download button to static demo PDF before integrating backend streaming.

GRADE: A- (VERY STRONG)

8.8 / 10

Completion: 90.0%

Akash Rana – Kanban Board & Interactive Components

Squad PHP-FE-A • Email: muskanarshad2580@gmail.com

TECHNICAL COMPLEXITY

9.6 / 10

DOD COMPLIANCE

9.0 / 10

CODE PROFESSIONALISM

7.8 / 10

GIT COLLABORATION

8.8 / 10

Deliverables: FEA-W7D4-2 (Kanban Board) FEA-W7D4-2 (Drag/Drop Backend) Task 1 (Debounced Search)
Task 2 (Notes Panel)

✓ Code Strengths & Key Achievements

- Built native HTML5 Drag and Drop Kanban with high responsiveness and drag states.
- Implemented asynchronous database persistence (`update-stage.php`) syncing column & position.
- Developed debounced search input component with live match count calculation.
- Clean micro-animations on quick note insertion into activity timeline.

! Deficiencies & Areas for Growth

- Used Roman-Urdu in API error messages (e.g. *"Sirf POST allowed hai"*) violating enterprise conventions.
- Created redundant DB connection `db\_connect.php` pointing to non-standard database.
- Dumped files in root directory rather than creating a dedicated `kanban/` folder.

Kaneez Fatima – Responsive Design & Quality Assurance

Completion: 86.0%

Squad PHP-FE-B • Email: faziz9121@gmail.com

QA & TESTING
9.8 / 10

CSS & RESPONSIVE
9.0 / 10

BACKEND INTEGRATION
7.8 / 10

DOCUMENTATION
9.5 / 10

Deliverables: FEB-W7D1-1 (Login UI) FEB-W7D1-2 (Reset Password UI) FEB-W7D4-3 (Mobile QA Report)
FEB-W7D5-1 (Phone Breakpoints)

✓ Code Strengths & Key Achievements

- Authored outstanding 6-device viewport test audit in `docs/MOBILE-TESTING-REPORT.md`.
- Resolved critical mobile usability defects: OTP layout wrapping, navigation collapse, table overflow.
- Enforced 44px minimum mobile tap targets as specified in Apple/Google guidelines.
- Clean, modular CSS media queries with high cross-device fidelity.

! Deficiencies & Areas for Growth

- Early login PRs were static HTML mockups pointing to dummy actions without PHP auth wiring.
- Merge conflict in early sprint accidentally zeroed out empty `.gitkeep` placeholder files.
- Needs to expand full-stack capabilities beyond CSS and front-end markup.

GRADE: A- (SOLID ARCHITECT)

8.5 / 10

Completion: 88.0%

Zainab Batool – Backend Lead & CRM API Engine

Squad PHP-BE (Squad Lead) • Email: zainab.batool@devlogix.online

BACKEND LOGIC

9.2 / 10

SECURITY / SQL

9.0 / 10

GIT HYGIENE

6.8 / 10

SYSTEM CONSISTENCY

8.0 / 10

Deliverables: BE-W7D2-3 (Magic Codes/OTP) BE-W7D4-1 (Lead Stage Updates) BE-W7D5-1 (Lead Search API)
BE-W7D5-3 (Cleanup/Guards)

✓ Code Strengths & Key Achievements

- Implemented reliable transactions ('beginTransaction', 'FOR UPDATE', 'commit') in stage updates.
- Automated audit trail generation: writing transitions into 'activity_logs' table upon lead updates.
- Parameterized SQL queries preventing SQL injection across search and stage changes.
- Delivered comprehensive passwordless OTP expiration and verification logic.

! Deficiencies & Areas for Growth

- Major Git Incident: Overwrote root 'README.md' with 12-line snippet in commit '450cd5d'.
- Committed 'test_request.php' with hardcoded machine URL ('http://localhost/BE-W7D4-1...').
- PR #19 called 'LeadRepository.php' without committing the class file, causing fatal error.
- Schema drift: queried 'leads.stage' while early database schema had 'leads.status'.

GRADE: B+ (GOOD TECHNICAL)

8.0 / 10

Completion: 82.0%

Halima Sadia – Agreement Page & Canvas Signature

Squad PHP-FE-B • Email: halima.sadia@devlogix.online

CANVAS / JS LOGIC

9.0 / 10

UI AESTHETICS

8.4 / 10

BACKEND INTEGRATION

6.8 / 10

GIT DISCIPLINE

7.2 / 10

Deliverables: FEB-W7D3-3 (Agreement Shell) FEB-W7D4-2 (Drawable Signature Pad)

✓ Code Strengths & Key Achievements

- Implemented full HTML5 Canvas signature pad supporting mouse and touch input.
- Interactive validation: submit button remains disabled until signature is drawn.
- Clean canvas clear functionality, auto-timestamping, and stroke smoothing.
- Modern legal agreement shell layout with PDF viewer placeholders.

! Deficiencies & Areas for Growth

- Signature data was purely client-side; failed to post Base64 PNG to backend database.
- Dumped duplicate 'style.css' and 'script.js' into root directory to preview standalone mockup.
- Committed raw tarball 'agreement_page.tar.gz' to git repository.

4. Executive Recommendations for Sprint 2

Strategic Staffing & Progression Decisions

- Top Performer Recognition:** Commend **Sayed Arooj** for highest deliverable completion, visual polish, and graceful degradation architecture. Recommended for Client Portal feature ownership in Sprint 2.
- Technical Lead Role:** Promote **Akash Rana** to Lead Frontend Developer for internal CRM, pairing him with a senior mentor to instill international coding and naming standards.
- Backend Governance:** Retain **Zainab Batool** as Backend Engineer with mandatory PR template enforcement, branch protection, and schema migration checklists to prevent repository overwrites.
- QA & Mobile Leadership:** Appoint **Kaneez Fatima** as Cross-Squad QA Lead to maintain responsiveness and test coverage.
- Full-Stack Growth:** Assign **Halima Sadia** backend pairing sessions to connect client-side Canvas components to persistent database endpoints.
